A guest lecture was conducted by the Department of M.Sc., Chemistry for Organic & Analytical Chemistry specializations on 13-9-2019 by Dr. B. Jagan Mohan Reddy, Associate Professor, Adikavi Nannaya University, Rajamahendravaram.

Dr. B. Jagan Mohan Reddy sir explained about the importance of organic synthesis and analytical techniques. He discussed about the importance of reaction intermediates like free radicals, carbocations, carbanions, benzyne, nitrenes etc., in chemical reactions. He also explained about the formation of double bonds and single bond reactions. Sir discussed about the different chemical reactions and also its stereochemistry. He explained about the conversion of carbonyl compounds into single bonded compounds. He discussed about some of the named reaction.

In the latter half of the session he explained about the importance of analytical techniques. He discussed about the different spectroscopic techniques which are useful to determine the structure of the organic compounds. He explained about the UV,IR, Mass, NMR spectroscopy techniques. Finally he advised the students to work hard and achieve their goals.
